

Testimony: Prayers for a Job Answered!

CAT Prayer Meeting 1: On 4 June 2009.

Testimony:

We attended the first CAT Prayer Meeting held in Auckland in June specifically to ask for my husband to get employment as he has been unemployed for the last six months. We were nearing a time when we would need to make hard decisions like having to sell our home and/or move overseas.

On 6 July 09, he was offered a job. The events that led to the offer were definitely a God-happening and the answer to a whole lot of prayers that have gone up and out from a whole lot of people.

When he applied for the position back in early May, he got a reply saying that he was not being considered for it. Then, in late June, he was contacted to say that he could come for an interview. At the interview he was told that the person who had decided that he was not suited had **changed his mind!!** The reason the manager had decided this was that we lived too far away! It's a real miracle that this man changed his mind— at the right time. God is never late. He is always on Time.

Not only was the job offered but his future boss actually recommended for him to be paid higher than the job offered. That was confirmed as well. This shows that God does not look at the times of the world, which is in recession right now, for there is no such thing in His Kingdom or with His people. God **gives in abundance.**

Thank you so much to all those who have actively prayed for us. This really is a huge example of God's provision for us to pray for others especially for God's extended family.

Thank you to the prayer team again and may I encourage you all to attend our next Prayer and worship meeting and if you would like some personal prayer don't be frightened to come forward and receive it as God is good to us all

From A. H in Auckland
